

THE counties of Mohave, Yavapai and Coconino made a successful effort to display their ores at the Albuquerque fair now open.

THE rain makers in El Paso will have an easy time today in bringing rain. It is a question whether or not the rain did not anticipate the blast and come ahead of them.

THERE is much rejoicing among the farmers over the war in Europe and the prospect of getting high prices for wheat, while the speculators are figuring how to do up the farmers for their audacity.

LAST year 1 and 35-100 of an inch of rain fell on the 16th and 17th of September. On reference to the files of the PROSPECTOR for four years past, the fact is established that it has always rained and turned off cold on the day following the Mexican Fourth of July. May not the bombs and powder exploded by our neighbors to the south of us have something to do with this.

THE report of the rainfall in inches for ten years in Arizona, shows that in the southern part as well as the northern and central portion, the bulk of the precipitation is in the winter months or beginning January 1st and ending June 31st. While July and August are the wettest months of the year, January and February are a close second while the month of September shows a very slight fall, being an average of about three-quarters of an inch for the month. Another peculiar feature of the record of ten years is the fact that from the year 1880 to the year 1884 there was a greater fall of rain, as recorded by the government observers throughout southern Arizona than for any other four years on record. These years will be remembered as four years of the greatest activity in mining circles in the territory's history, especially was it so in the southern part where there was to be heard in every mountain range an almost continuous report of the discharge of giant powder. Is it not within reason to suppose that it was this fact which caused the heavy precipitation in these years.

The Parent of Insomnia.
The parent of insomnia or wakefulness is in nine cases out of ten, a dyspeptic stomach. Good digestion gives sound sleep, indigestion interferes with it. The brain and stomach sympathize. One of the prominent symptoms of a weak state of the gastric organs is a disturbance of the great nerve entrapment, the brain. Invigorate the stomach and you restore equilibrium to the great centre. A most reliable medicine for the purpose is Hostetter's Stomach Bitters, which is far preferable to mineral sedatives and powerful narcotics which, though they may for a time exert a soporific influence upon the brain, soon cease to act, and invariably injure the tone of the stomach. The Bitters, on the contrary, restore activity to the operations of that all important organ, and their beneficial influence is reflected in sound sleep and a tranquil state of the nervous system. A wholesome impetus is likewise given to the action of the liver and bowels by its use.

Barnes' Imagination.
A dispatch from Independence, Mo. says that an expedition is being fitted out here by James B. Cusenberry, a wealthy miner, to go to the southern part of Arizona in search of the "lost mine" a marvelously rich mine worked a century or more ago by the Spaniards who were driven away by hostiles. He formerly lived in that region and while chasing a deer through the mountains near Arivaca some years ago, ran across the mine and examined some of the quartz on the dump which he found to be very fine quality of ruby quartz. Two years ago he met United States Judge Barnes who told him the story of the mine, how it had been worked a century or two ago by the Spaniards and their being driven away by the savages. Charts showing its location were preserved which were found years ago among some church papers in Spain. They were brought to this country by a Jesuit priest in 1887 who located a large amount of bullion but could not find the mine. Mr. Cusenberry is satisfied the mine he found is the right one. The party will leave in October.

Chief Ryan and Ben Hyde made a haul in Mexican town last night with the result that nine noisy Mexicans were located at the city jail for the last half of the night. Eight of the disturbers of the peace were males and one female. They were taken before Justice Alvord this morning and fined \$20 each or twenty days in jail. The indications are that they will do duty on the chain gang for their board.

NEWS BY WIRE.

FIRE.
NEW YORK—Fire broke out in the old Commercial Advertiser building on the southeast corner of Fulton and Nassau streets at 9:15 this morning. In fifteen minutes the flames had gained such headway that they were beyond control.

Every one escaped from the building, which with contents were entirely destroyed. The loss is variously estimated at from \$50,000 to \$750,000 partially insured.

ELEVEN THOUSAND.
LONDON—Letter received here from Jeddah state that the death rate from cholera among the pilgrims to Mecca was unprecedented in the annals of Mahomedan pilgrimage. The authorities estimate that 11,000 pilgrims died during the season with the epidemic. It has now disappeared.

NEWS FROM ROME.
ROME—The Chilean authorities have purchased the Aquila which has been transformed into a cruiser.

The Egreto contains an article supposed to have been inspired by the minister of war which predicts an outbreak of war during the coming winter and urges the government to take active steps to prepare the army and navy for it.

FEARFUL FLOODS.
MADRID—The loss in the flooded districts is terrible in extent. The rush of water in the province of Toledo was so sudden that hundreds were drowned in their beds. Four hundred bodies have been recovered and a hundred corpses have been seen floating in the swollen rivers. A national relief fund has been started.

NEWS FROM CHILE.
NEW YORK—A Herald cable from Valparaiso says the United States war ship Baltimore returned today from Celeo where it had landed refugees. Officials have been dispatched by the junta to Europe to bring over the new Chilean war ships, Pinto and Errazuriz. Naval commands have been assigned to all the Chilean fleet.

A TEST CASE.
WACO—The first case in the state under the alien land law was filed here today. It is a suit of the state by its county attorney to escheat to the state a valuable tract of land bought by Theo M. Allison a foreigner. A test case will be made of this and it will be watched with more interest than any land suit ever instituted in Texas. A final hearing is expected within sixty days.

A FAKE.
PARIS—The new Turkish minister of the interior telegraphed to the British ambassador at Constantinople, Sir William White, asking him to explain the reports as to the landing of a British force on Turkish territory. Sir William in reply said that he was entirely ignorant of the whole affair, but he added it was probable that the crew of some British war ships may have landed on the Island of Mitylene in the course of the regular boat drills and landing exercises. The British ambassador assured the Turkish minister that no fortification had been constructed by British troops on the island. This view of the case was confirmed by a dispatch received here during the night which stated that the foreign force which landed from the British war ships, had re-embarked and that the men-of-war had left the island of Mitylene for Marmorite.

GOLD RETURNING.
NEW YORK—The Fourth National Bank received yesterday a shipment of gold from Europe amounting to \$2,500,000.

MEXICAN MATTERS.
CITY OF MEXICO—It is feared that the recent heavy rains have endangered the sugar, coffee and cotton crops in the southern states.

The minister of finance has ordered that of all metal or mineral exported from this country, two specimens of one half ounce each must be taken from every bar.

German merchants here are strongly opposing reciprocity between the United States and Mexico.

PROCLAMATION.
WASHINGTON—The presidents proclamation opening to settlement, the ceded lands of the Indians on the Sac and Fox, Iowa and Pattawatic and Absentee and Shawnee reservation in the Oklahoma will be issued tomorrow or the day following. The proclamation, it is estimated, would fill an entire page of a country newspaper.

PRIZE RING.
SAN FRANCISCO—Tom McCarthy of Boston and Billy Smith of Australia, heavyweights, fought for a \$1000 purse at the California Club. McCarthy was whipped in the eighth round.

FALSE ALARM.
LONDON—It is now stated that the Mitylene scare has arisen from the fact that a party of British naval officers on Saturday last camped on desert isle of Cape Segri and that they re-embarked the same evening on board and sailed away Sunday.

DEMOCRATS ENDORSE BLAINE.
NEW YORK—The most conspicuous plank in the democratic platform is the precise acknowledgement of reciprocity in trade with foreign people "as advantageous to all our industries." The temporary chairman pointed with pride to the growing commerce of the country under reciprocity with our American neighbors, induced by the matchless foresight of Secretary Blaine.

FRENCH LOAN.
PARIS—It is stated that the Credit Fancier has taken up a new Russian loan. This is regarded as important news, the Credit Fancier being the first to take part in the loan. It is expected the contract will be signed Wednesday.

EFFORT FOR MRS. MAYBRICK.
LONDON—The committee formed for the purpose of leaving no stone unturned in order to bring about the release of Mrs. Maybrick from prison has retained the services of Sir Charles Russell and Sir Horace Davey in order to test the legality of Mrs. Maybrick's detention in prison.

TRAIN ROBBERY.
ST. LOUIS—A dispatch from Muskogee, Indian Territory says: The Missouri Kansas & Texas south bound passenger train was held up and the express car robbed at 9:30 last night at Lelinetta four miles from Wagoner. The robbers covered the train official and two of their number entered the express car. They ordered the express man to open the large steel safe which he was unable to do and it took considerable arguing before he could convince the robbers his utter inability to comply. They thereupon dumped the small iron chest containing \$2,500 out of the express car door and breaking it open took the entire amount.

INVADING MEXICO.
NEW ORLEANS—The report direct and authentic, of an incipient revolution movement in Mexico, was received here today. Captain Randall, fifth infantry commander of Fort Ringold, wired General Stanley that the notorious C. G. Garcia had crossed the Rio Grande from Starr county into Mexico for the purpose of inciting a revolution. General Stanley ordered Randall to take a detachment of cavalry and investigate the case, to patrol the river and cut off the retreat of the band in case they returned. The Mexican authorities have been wired and they are in pursuit of the intruders. Garcia is a professional disturber, bandit and raider.

A COLLISION.
SAN FRANCISCO—At a late hour last night a freight train crashed into the rear of the Los Angeles express just west of Girard. One man was killed and several wounded.

RAILROAD RACKET.
DENVER—The Republican tomorrow states from information in its possession that beyond a question of a

doubt, the Santa Fe and Rio Grande roads have entered into an agreement which is virtually a consolidation of the two roads.

RELIEF FOR THE POOR.
ST. PETERSBURG—The government has provided the sum of 22,000,000 roubles to be used as a fund for the relief of the distress existing among the poorer classes. Official reports show that the harvests have utterly failed in thirteen Russian provinces and partly in eight others.

SCARCITY OF SMALL CHANGE.
WASHINGTON—Owing to the numerous inquiries coming from many different parts of the country for fractional silver coin, indicating a scarcity of change in many communities, the United States treasury has prepared for transmission to all banks and other financial institutions and to the principal postoffices in the United States, a circular stating in substance that new halves and dimes will be furnished in sums of \$200 or more by express free of charge, or by registered mail in sums or multiples of \$20 registration charges paid to any point in the United States.

NO MORE BONDS TO BE CONTINUED.
WASHINGTON—Secretary Foster issued a circular this afternoon giving notice that no bonds of the 4 1/2 per cent loan would be received for continuance at 2 per cent after the 30th. Bonds not then continued will be redeemed on presentation. The assistant treasurer at New York will redeem the 4 1/2 per cent bonds on presentation at that place.

SILVER MARKET.
NEW YORK—The Post says: Silver bullion is declining again according to the usual programme for the last half of the month. Today the full government quota of 4,500,000 ounces for September was completed. The great London bullion brokers have long since discovered that the proper card for them to play is to withhold all orders for American silver until our government is out of the market for the month.

CHOLERA SPREADING.
BOSTON—A report received at the customs house for the provinces in Asiatic Turkey says that cholera is rapidly spreading there. The number of deaths reported in the city of Aleppo from June to the middle of August was 950. There are no definite figures for the other cities but they are enormous.

BAD MANAGEMENT.
LOS ANGELES—The Times to-day prints an interview with Debarth Short who has just returned from Chicago in which he states that the management of the World's Fair is rotten to the core and will take steps to have an investigation in Washington unless Davis is removed as director general on the ground of his unfitness for the place. Mr. Short says that Senator Stewart of Nevada has promised to lead in the case.

CHEAP WHEAT.
SAN DIEGO—The English steamer Hunslow came into port from Chili. She took 4000 tons of flour and wheat down for Grace & Co but found the market glutted. Wheat and flour were cheaper there than in San Francisco. She left Iquique about midnight and was pursued and fired upon by the Ram Huaschas which was on the lookout for congressional ships. The Huaschas discovered her mistake and the Hunslow proceeded unmolested.

FLOWER RESIGNED.
SARATOGA, N. Y.—After his nomination this afternoon Mr. Flower mailed the following letter to the secretary of state, Albany, New York: "Sir: I hereby tender my resignation as a member of the fifty-second congress from the twelfth district of the state of New York, to take effect today.

Very Respectfully,
ROSWELL P. FLOWER.

Capt. Adams, supt. of the Aravapai Mining Co., came in today. He was a standby in Tombstone years ago and has many friends here who are glad to welcome him back.

The case of C. M. Strauss vs. G. W. Cheyney for the recovery of salary drawn by the latter while the former was in possession of the office of Supt. of Public Instruction comes up in Tucson Oct. 28.

There are eighteen railroads already under way of construction in Arizona on paper.

The Las Vegas Stock grower denies the reports circulated by G. F. Black, that he could buy all the feeders he wanted in New Mexico at \$14 per head. Those he did buy at that figure were taken of men who were in the hole and had no other way to get out but to sell.

The Phenix Herald says of a former well known Tombstone character: "Gus Williams, the great Arizona mixologist, compounds his last cocktail and agitates his final Swiss 8 for his season in Phenix, to-night. Tomorrow he transfers his plant and professional activities to Prescott."

James Keilly had not heard of the proposed removal of his mental and physical composition to Tucson until the Tucson Star mentioned it. The Star was evidently mixed when it published the accompanying item:

The Tombstone PROSPECTOR announces that James Keilly is to take up his residence in this city. Mr. Riley is a good citizen and he will certainly be welcomed by Tucson's good and hospitable people.

The exchange of regiments which has been talked of at Huachuca is according to a Washington dispatch to the Globe-Democrat, settled upon. The headquarters and four companies of each regiment are to move about October 1st and the remainder of the 9th will come east as soon as new quarters are provided.

Professor Dyrenforth said last week in Washington that he was satisfied that it is only a question of time when we shall transform these arid plains into wet regions. The operation should be carried out by the government, and some statutory measures adopted to prevent everybody bringing on rain to suit himself. He says that his Texas experiments were a complete success.

Col. Herring has introduced the republican bill of rights which, although superfluous as regards its last sentence, is acceptable to every one in its sentiment. It would be however preferable to speak out and say what is meant which is simply that polygamy will not be tolerated. Here is Col. Herring's article—

"The free exercise and enjoyment of religious profession and worship, without discrimination or preference, shall forever be allowed in this state to all mankind, and no person will be rendered incompetent to be a witness on account of his opinion on matters of religious belief; but the liberty of conscience hereby secured shall not be so construed as to excuse acts of licentiousness or justify practices inconsistent with the peace or safety of this state."

The Court of Claims for the investigation of Indian depredation cases, will begin its session at Washington, D. C. in October. Already 4,300 claims have been filed. Three years are allowed in which to file petitions. After March 3, 1894 all claims for damages done by Indians previous to March 3, 1891, which have not been brought to the attention of this court will be forever barred. It is estimated that a total of 18,000 or 19,000 cases will be filed.—Ex.

Consumption cured.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, and a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp naming this paper, W. A. Noyes, 820 Power's Block, Rochester, N. Y. 1. 18, 1 y'r w

From 1834 to 1874 the ratio of silver to gold was 16 to 1. Silver was at a premium of 1 to 3 per cent in the London market. The gold men sought to bear silver and bring their metal to a premium, and how well they accomplished it the act of 1873 shows. The excuse for this was that silver was at a premium of 3 per cent and was "a standing guard against a rise in gold." The same reasoning is good now when the silver men want their old coat back. Gold in its present relationship to silver is a standing menace to the rise in silver.
